DATE MAILED: 09/11/2006

Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary	Application No. 10/734,064	Applicant(s) VORENKAMP ET AL.	
	Examiner Stephen J. Castellano	Art Unit 3727	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 22 August 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

Art Unit: 3727

Applicant's election with traverse of claims 8-11 in the reply filed on August 22, 2006 is acknowledged. The traversal is on the ground(s) that the blow molding method is incapable of producing the tank with the welded component. This is not found persuasive because applicant has not specified any particular error with the restriction requirement. Furthermore, it is believed that the same final structural component can be achieved through blow molding with subcomponents inserted within the tank and with air being injected into the internal cavity of a parison to make the tank. In addition, the blow molding method is only an example and the same final structural component can be made by other welding methods other than induction, as evidenced by other examples of microwave, ultra-sound, electrical resistance heating, gas welding, etc.

The requirement is still deemed proper and is therefore made FINAL.

Claims 1-7 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on August 22, 2006.

The rejection made in the Office action mailed July 27, 2006 is maintained.

Applicant's arguments filed August 22, 2006 have been fully considered but they are not persuasive. Applicant states that the component of Mueller is not attached by inductive welding.

First, the method of welding is clearly stated to be induction (see paragraph 20, last sentence and claim 11, last four lines).

Second, the specific method of welding, in this case "inductive," is given no weight in the article claim. Regardless of the specific method of welding, the structure will be the same,

Art Unit: 3727

that is, a welded structure. Mueller discloses the specific method of inductive welding. Even if the tank is made by electric resistance heating, microwave, or any other welding method, there is no structural difference in the final article.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
